

# YEAR 1 - Unit 5 – PLANTS AND SEASONS

## MODEL QUESTION PAPER

1. Unscramble the letters to name the different parts of a plant.

2. A tree that looks different in each season is called a deciduous tree. Draw a line from each tree to the season it belongs to.

spring

summer

autumn

winter

3. The weather changes across the seasons. In which seasons would you most likely expect to wear the following clothes?

4.Fill in the gaps and match the sentences to pictures.

weather vane

barometer

thermometer

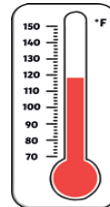

rain gauge

A \_\_\_\_\_ shows the wind direction.

A t \_\_\_\_\_ shows temperature.

A r \_\_\_\_\_ shows how much it rained.

A b \_\_\_\_\_ measures the air pressure.

5. Tick the sentences that are **true**.

Thermometers and rain gauges can help us to measure and record the weather.

Weather forecasts don't help to predict future weather.

This weather symbol means snow.

This symbol means rain.

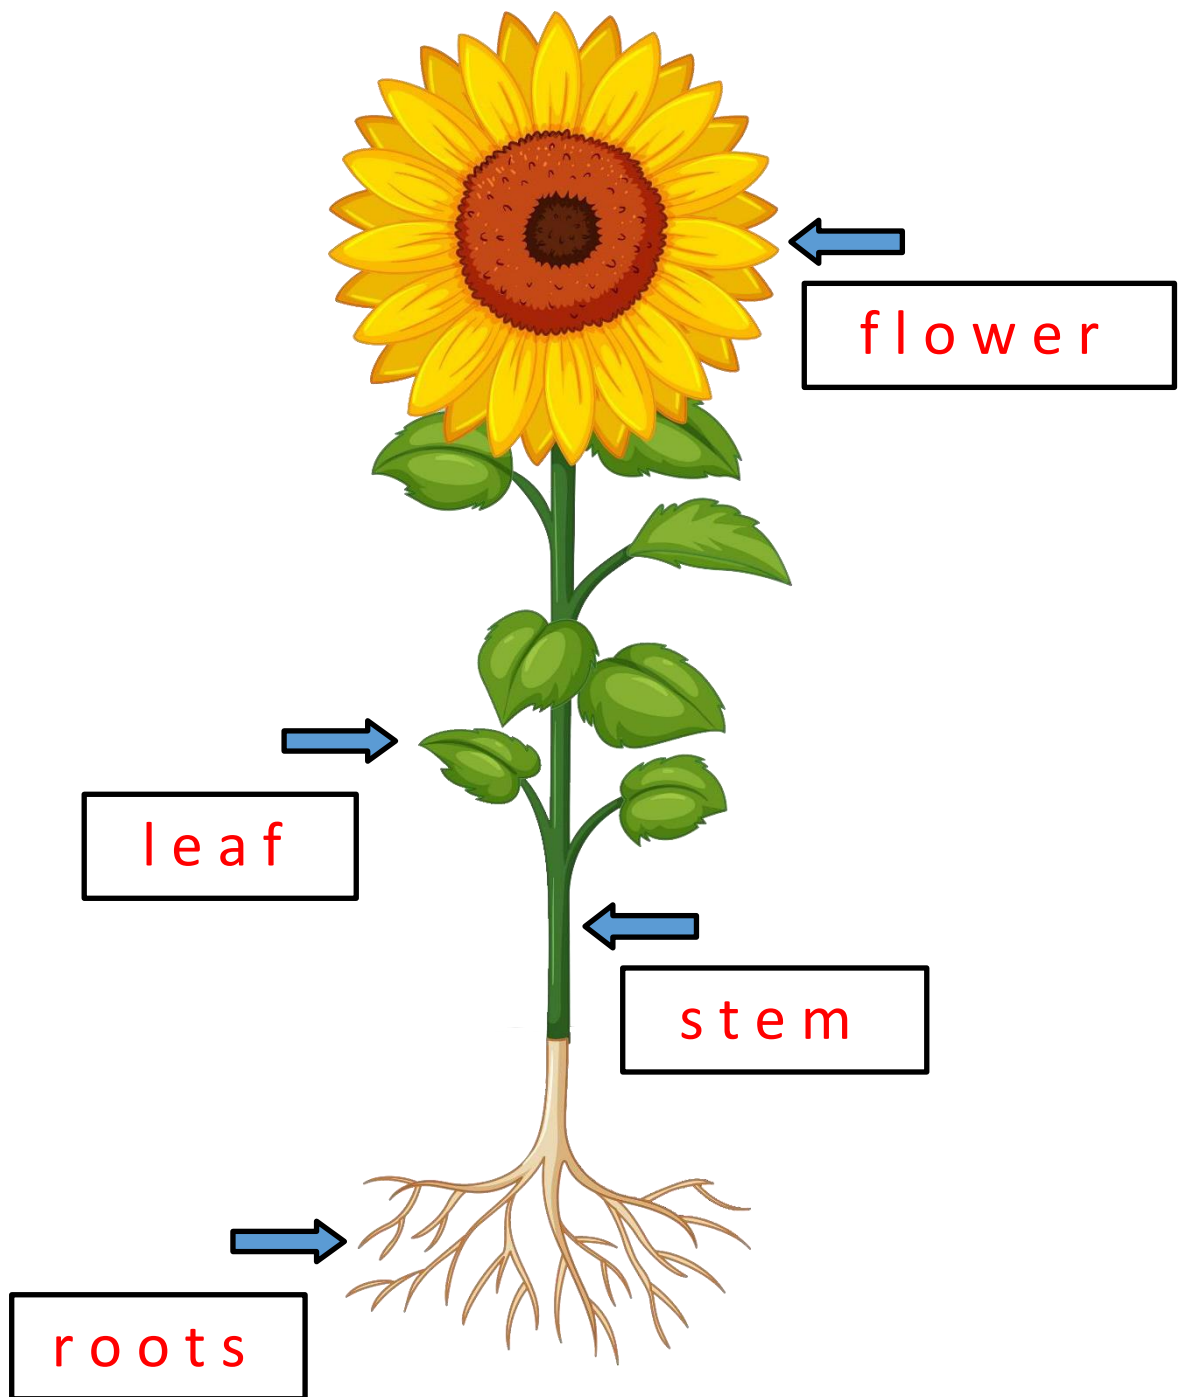

This symbol means there will be sunny and cloudy weather at the same time.

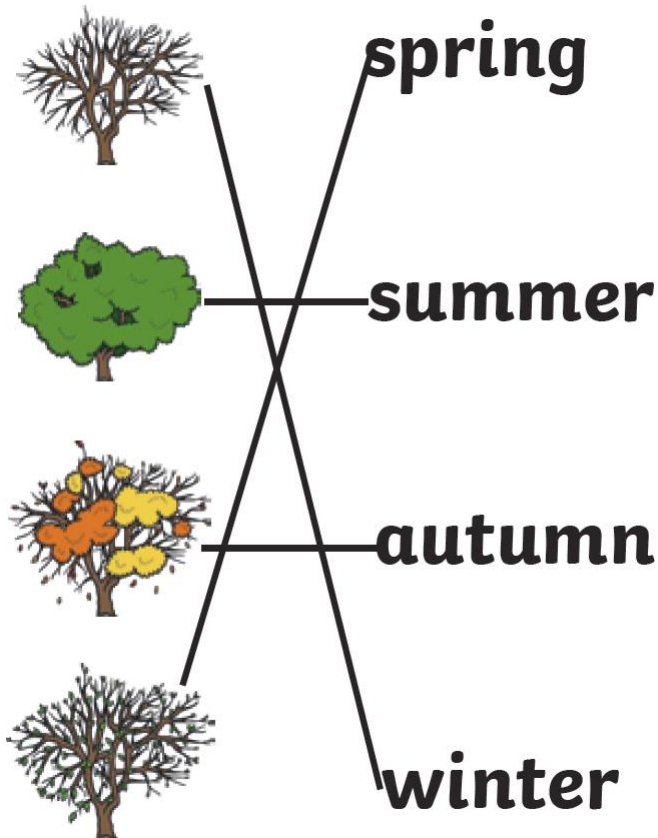

Answers

1.
